

ICUTRONIC FIT 24V

Fonte de tensão constante para módulos de LED

Áreas de aplicação

- Hospitality – decorative lighting, night light
- Residential – cove lighting, under cabinet lighting
- Shops – decorative lighting, shelf lighting
- Restaurants – decorative lighting

Benefícios do produto

- Well design for Flex and Signage
- Excellent price/quality/watt ratio

Características do produto

- Wide Ta range -20 – +50 °C
- 24 V constant output voltage
- Output power up to 250 W
- High efficiency up to 93% (depend on different wattage)
- PF >0.98
- Screw terminal
- Suitable for Class I/II luminaires
- Build-in and independent installation
- 5 years guarantee*
- Cable clamp integrated
- SELV
- Proteção contra excesso de temperatura
- Mains voltage: 220 – 240 VAC
- Short circuit protection

Ficha técnica da família de produto

Informações sobre aplicações

Ecodesign regulation information:

Intended for use with LED modules.

The forward voltage of the LED light source shall be within the defined operating window of the control gear in all operating conditions including dimming if applicable.

Separate control gear and light sources must be disposed of at certified disposal companies in accordance with Directive 2012/19/EU (WEEE) in the EU and with Waste Electrical and Electronic Equipment (WEEE) Regulations 2013 in the UK. For this purpose, collection points for recycling centres and take-back systems (CRSO) are available from retailers or private disposal companies, which accept separate control gear and light sources free of charge. In this way, raw materials are conserved and materials are recycled.
